

KEISIE INTERNATIONAL UNIVERSITY

Dear Alumni,

KEISIE International University is beginning to change the way people think about education, and all of our past and current Alumni are the reason for this. With this in mind, KIU would like to introduce the At-Large Professorship Program (ALPP).

The purpose of the program is simple: We believe past graduates of the University are in the best position to provide the type of mentoring current research students need to accomplish the tasks they face in completing their own projects. When our community of learners connects, it is a way of alumni giving back to the University in ways that money cannot. Real world experience and professional mentoring for students seeking to become leaders in their own rights.

So how to you as an Alumni become involved? That is simple as well. You simply need to give your consent to helping to mentor students on occasion and providing your feedback for project, Thesis and Dissertation submissions from students completing their study at the University. An Application for participating in the ALP Program is available on the University web site at: www.keisie.university in the download section of the homepage. Thank you for helping to make KIU the best option for students in the world.

Sincerely,

Dr. Wayne Bottiger
President, KIU
